

## PUBLICATIONS

- Clapham, M.E.**, and Bottjer, D.J. 2007. Permian marine paleoecology and its implications for large-scale decoupling of brachiopod and bivalves abundance and diversity during the Lopingian (Late Permian). Palaeogeography, Palaeoclimatology, Palaeoecology, v. 249, p. 283-301.
- Clapham, M.E.**, and Bottjer, D.J. 2007. Prolonged Permian-Triassic ecological transition recorded by molluscan dominance in Late Permian offshore assemblages. Proceedings of the National Academy of Sciences, USA, v. 104, p. 12971-12975.
- Clapham, M.E.**, and James, N.P. In review. Paleoecology of Early-Middle Permian (Sakmarian-Capitanian) marine communities in eastern Australia: response to global climate change in the aftermath of the late Paleozoic ice age. Palaios.
- Clapham, M.E.**, Shen, S.Z., and Bottjer, D.J. In review. The double mass extinction revisited: reassessing the severity, selectivity, and paleobiogeographic pattern of the end-Guadalupian biotic crisis (Middle-Late Permian), Paleobiology.
- Bottjer, D.J., **Clapham, M.E.**, Fraiser, M.L., and Powers, C.M. In review. Ecology of the end-Permian mass extinction and its recovery. GSA Today.
- Fraiser, M.L., **Clapham, M.E.**, and Bottjer, D.J. In review. Mass extinctions and changing taphonomic processes. In: Taphonomy: Process and Bias Through Time, P.A. Allison and D.J. Bottjer (eds.)
- Shen, S.Z., and **Clapham, M.E.** In press. New silicified Late Permian (Wuchiapingian-Changhsingian) brachiopods from the Episkopi Formation, Hydra (Greece). Palaeontology.
- Alroy, J., Aberhan, M., Bottjer, D.J., Foote, M., Fürsich, F.T., Hendy, A.J.W., Holland, S.M., Ivany, L.C., Kiessling, W., Kosnik, M.A., Marshall, C.R., McGowan, A.J., Miller, A.I., Olszewski, T.D., Patzkowsky, M.E., Wagner, P.J., Bonuso, N., Borkow, P.S., Brenneis, B., **Clapham, M.E.**, Ferguson, C.A., Hanson, V.L., Powers, C.M., Krug, A.Z., Layou, K.M., Leckey, E.H., Nürnberg, S., Peters, S.E., Sessa, J.A., Simpson, C., Tomasovych, A., and Visaggi, C.C. In review. Sampling-standardized Phanerozoic trends in the diversity of marine organisms. Science.
- Clapham, M.E.**, Bottjer, D.J., Powers, C.M., Bonuso, N., Fraiser, M.L., Marenco, P.J., Dornbos, S.Q., and Pruss, S.B. 2006. Assessing the ecological dominance of Phanerozoic marine invertebrates. Palaios, v. 21, p. 431-441.
- Bottjer, D.J., and **Clapham, M.E.** 2006. Evolutionary paleoecology of Ediacaran benthic marine organisms. In: Neoproterozoic Geobiology, S. Xiao and A.J. Kaufman (eds.), Kluwer Press, p. 91-114.
- Clapham, M.E.**, and Corsetti, F.A. 2005. Deep valley incision in the terminal Neoproterozoic (Ediacaran) Johnnie Formation, eastern California, USA: tectonically or glacially driven? Precambrian Research, v. 141, p. 154-164.

- Clapham, M.E.**, Narbonne, G.M., Gehling, J.G., Greentree, C., and Anderson, M.M. 2004. *Thectardis avalonensis*: a new Ediacaran fossil from the Mistaken Point biota, Newfoundland. Journal of Paleontology, v. 78, p. 1031-1036.
- Clapham, M.E.**, Narbonne, G.M., and Gehling, J.G. 2003. Paleocology of the oldest-known animal communities: Ediacaran assemblages at Mistaken Point, Newfoundland. Paleobiology, v. 29, p. 527-544.
- Wood, D.A., Dalrymple, R.W., Narbonne, G.M., Gehling, J.G., and **Clapham, M.E.** 2003. Paleoenvironmental analysis of the late Neoproterozoic Mistaken Point and Trepassey formations, southeastern Newfoundland. Canadian Journal of Earth Sciences, v. 40, p. 1375-1391.
- Clapham, M.E.**, and Narbonne, G.M. 2002. Ediacaran epifaunal tiering. Geology, v. 30, p. 627-630.
- Clapham, M.E.**, Smith, P.L., and Tipper, H.W. 2002. Lower to Middle Jurassic stratigraphy, ammonoid fauna and sedimentary history of the Laberge Group in the Fish Lake syncline, northern Whitehorse Trough, Yukon, Canada. In: Yukon Exploration and Geology 2001, D.S. Emond, L.H. Weston and L.L. Lewis (eds.), Exploration and Geological Services Division, Yukon Region, Indian and Northern Affairs Canada, p. 73-85.
- Narbonne, G.M., Dalrymple, R.W., Gehling, J.G., Wood, D.A., **Clapham, M.E.**, and Sala, R.A. 2001. Field trip localities description. In: Neoproterozoic Fossils and Environments of the Avalon Peninsula, Newfoundland, G.M. Narbonne, R.W. Dalrymple and J.G. Gehling (eds.), Geological Association of Canada Field trip B5 Guidebook, 100 pp.
