

LISA CIRBUS SLOAN

Professor

Department of Earth Sciences

WRITINGS AND CREATIVE ACTIVITIES IN PROGRESS

Articles in progress:

Bell, J.L., Sloan, L.C., and Snyder, M.A., Regional changes in extreme climatic events, submitted to *Journal of Climate*, July 2002.

Snyder, M.A., Sloan, L.C., and Bell, J.L., Regional climate change in the ten hydrologic regions of California: A sensitivity study, submitted to *Journal of American Water Resources Association*, July 2002.

Sewall, J.O., Huber, M., and Sloan, L. C., A method for guiding a fully coupled model to a desired climate state, submitted to *Climate Dynamics*, July 2002.

Diffenbaugh, N.S., Sloan, L. C., Bell, J.L., Snyder, M.A., "Vegetation sensitivity in a topographically complex region to direct and indirect effects of anthropogenic carbon dioxide emissions", submitted to *Global Biogeochemical Cycles*, July 2002.

Pierazzo, E., Hahmann, A., and Sloan, L. C., Chicxulub and climate: Effects of stratospheric injections of impact-produced S-bearing gases, in review, *Rubey Symposium Special Volume*.

Haddad, B. M., Sloan, L. C., Snyder, M.A., and Bell, J.L., Regional climate change impacts: The role of institutional adaptability, in review, *International Journal for Sustainable Development*

Shellito, L.J., Sloan, L. Cirbus, and Huber, M., Evaluating pCO₂ levels in the early-middle Paleogene, in revision, *Palaeogeog., Palaeoclim., Palaeoecol.*, 2002.

Dole, K.P., Loik, M., and Sloan, L. Cirbus, The relative importance of climate change and the physiological effects of CO₂ on freezing tolerance for the future distribution of *Yucca brevifolia*, in press, *Global and Planetary Change*, 2002.

Lawrence, K.T., Sloan, L. Cirbus, and Sewall, J.O., Terrestrial climatic response to precessional orbital forcing in the Eocene, *Geological Society of America Special Volume, Causes and consequences of globally warm climates in the early Paleogene*, in press, 2002.

Huber, M., Sloan, L. C., and Shellito, L.J., Early Paleogene oceans and climate: A fully coupled modeling approach using the NCAR CCSM, *Geological Society of America Special Volume, Causes and consequences of globally warm climates in the early Paleogene*, in press, 2002.

Bell, J.L., Sloan, L. Cirbus, Revenaugh, J., and Duffy, P.B., Evaluation of Northern Hemisphere natural climate variability in multiple temperature reconstructions and global climate model simulations, *Global and Planetary Change*, in press 2002.

PUBLISHED WRITINGS AND CREATIVE ACTIVITIES

Articles in Professional Journals:

Snyder, M.A., Bell, J.L., Sloan, L. Cirbus, Duffy, P. B., and Govindasamy, B., Climate responses to a doubling of atmospheric carbon dioxide for a climatically vulnerable region, *Geophys. Res. Letters*, 7 June 2002 (vol. 29, 10.1029/2001GL014431, 2002).

Diffenbaugh, N. S., and Sloan, L. Cirbus, Global climate sensitivity to land surface change: The Mid Holocene revisited, *Geophys. Res. Letters*, 30 May 2002 (vol. 29, 10.1029/2002/GL014880, 2002).

Sewall, J.O., and Sloan, L. Cirbus, Equable Paleogene climates: The result of a stable, positive Arctic Oscillation?, *Geophys. Res. Letters*, v. 28, 3693-3696, 2001.

Huber, M., Sloan, L. Cirbus, Heat transport, deep waters, and temperature gradients: Coupled simulation of an Eocene "Greenhouse" climate, *Geophys. Res. Letters*, v. 28, 3481-3484, 2001.

Morrill, C., Small, E. E., and Sloan, L. Cirbus, Modeling orbital forcing of lake level change: Lake Gosiute (Eocene), North America, *Global and Planetary Change*, v. 29, 57-76, 2001.

Zachos, J., Pagani, M., Sloan, L. C., Thomas, E., and Billups, K., Trends, rhythms, and aberrations in global climate 65 Ma to present, *Science*, v. 292, 686-693, 2001.

Sloan, L. Cirbus, Huber, M., Crowley, T.J., Sewall, J.O., and Baum, S., Effect of sea surface temperature configuration on model simulations of "equable" climate in the early Eocene, *Palaeogeography, Palaeoclimatology, Palaeoecology*, v.167, 321-335, 2001.

Sloan, L. Cirbus, and Huber, M., Eocene Oceanic Responses to Orbital Forcing on Precessional Time Scales, *Paleoceanography*, v. 16, 101-111, 2001.

Small, E. E., Sloan, L. Cirbus, and Nychka, D., Changes in surface air temperature caused by desiccation of the Aral Sea, *J. Climate*, v. 14, p. 284-299, 2001.

Small, E.E., Giorgi, F., Sloan, L. Cirbus, and Hostetler, S., The effects of desiccation and climatic change on the hydrology of the Aral Sea, *J. Climate*, v. 14, p. 300-322, 2001.

Sewall, J.O., Sloan, L. Cirbus, Huber, M., and Wing, S., Climate sensitivity to changes in land surface characteristics, *Global and Planetary Change* v. 26, p. 445-465, 2000.

Peters, R. B., and Sloan, L. Cirbus, High concentrations of greenhouse gases and polar stratospheric clouds: A possible solution to high latitude faunal migration at the Latest Paleocene Thermal Maximum, *Geology*, v. 28, p. 979-982, 2000.

Sloan, L. Cirbus, Huber, M., Peters, R., and Ewing, A., Modeling the Paleogene, Part I: Paleogene terrestrial climate change predicted from climate modeling studies, *GFF*, (Geological Society of Sweden), v. 122, p. 146-147, 2000.

Huber, M, and Sloan, L. Cirbus, Modeling the Paleogene, Part II: Paleogene wind-driven ocean circulation changes predicted from climate modeling studies, *GFF* (Geological Society of Sweden), v. 122, p. 80-81, 2000.

Huber, M, and Sloan, L. Cirbus, Climatic responses to tropical sea surface temperature changes on a "greenhouse" Earth, *Paleoceanography*, v. 15, 443-450, 2000.

Duffy, P.B., Bell, J., Covey, C., Sloan, L., and the CMIP investigators, Effect of flux adjustments on temperature variability in climate models, *Geophys. Res. Lett.*, v. 27, p. 763-766, 2000.

Bell, J., Duffy, P., Covey, C., and Sloan, L. Cirbus, and the CMIP investigators, Comparison of temperature variability in observations and sixteen climate model simulations, *Geophys. Res. Lett.*, v. 27, p. 261-264, 2000.

Early Paleogene Warm Climates and Biosphere Dynamics: Meeting in Göteborg Makes Progress in Deciphering the Dynamics of Past Greenhouse Worlds, L. Cirbus Sloan, B. Schmitz, M.-P. Aubry, and J. Zachos, *Paleoceanography*, v. 14, p. 559-560, 1999.

Warm Climate Transitions: A General Circulation Modeling Study of the Late Paleocene Thermal Maximum (~56 Ma), M. Huber and L. Cirbus Sloan, *Jour. Geophys. Research*, v. 104, p.16633-16655, 1999.

Simulating the water balance of the Aral Sea with a coupled modeling system, E.E. Small, L. Cirbus Sloan, S. Hostetler, and F. Giorgi, *Jour. Geophys. Research*, v. 104, p.6583-6602, 1999.

Regional climate model simulation of precipitation in central Asia: Mean and interannual variability, E.E. Small, F. Giorgi, and L. Cirbus Sloan, *Jour. Geophys. Research*, v. 104, p.6563-6582, 1999.

Orbital Forcing and Eocene Continental Temperatures, L. Cirbus Sloan and C. Morrill, *Palaeogeography, Palaeoclimatology, Palaeoecology*, v. 144, p. 21-35, 1998.

Polar stratospheric clouds: a high latitude winter warming mechanism in an ancient greenhouse world, L. Cirbus Sloan and D. Pollard, *Geophysical Research Letters*, v. 25, p. 3517-3520, 1998.

A comparison of spatially-resolved and global mean reconstructions of continental denudation under ice-free and present conditions, L. Cirbus Sloan, G. J. S. Bluth, and G. Filippelli, *Paleoceanography*, v. 12, p. 147-160, 1997.

Paleoclimate data constraints on climate sensitivity: The paleocalibration method, C. Covey, L. Cirbus Sloan, and M. I. Hoffert, *Clim. Change*, v. 32, p. 1-20, 1996.

Modeling of Middle Pliocene climate with the NCAR Genesis general circulation model, L. Cirbus Sloan, T. J. Crowley, and D. Pollard, *Marine Micropaleontology*, v. 27, p. 51-61, 1996.

Climates and climate variability of the Pliocene, R. Z. Poore and L. Cirbus Sloan, *Marine Micropaleontology*, v. 27, p. 1-2, 1996.

The role of oceanic heat transport in early Eocene climate, L. Cirbus Sloan, J. C. G. Walker, and T.C. Moore, Jr., *Paleoceanography*, v. 10, p. 347-356, 1995.

Atmospheric carbon dioxide and early Eocene climate: A general circulation modeling sensitivity study, L. Cirbus Sloan, and D. K. Rea, *Palaeogeography, Palaeoclimatology, Palaeoecology*, v. 119, p. 275-292, 1995.

Model-model and data-model comparisons: Applications to the PRISM project, L. Cirbus Sloan, U.S. Geological Survey Open File Report 94-23, R. S. Thompson, ed., p. 69-70, 1994.

"Equable" climates during the early Eocene: Significance of regional paleogeography for North American climate, L. Cirbus Sloan, *Geology*, v. 22, p. 881-884, 1994.

Modeling of Mid-Pliocene climate with the NCAR Genesis GCM, L. C. Sloan, U. S. Geological Survey Open File Report 94-588, S. E. Ishman, ed., p. 24, 1994.

Possible methane-induced polar warming in the early Eocene, L. Cirbus Sloan, J. C. G. Walker, T.C. Moore, Jr., D. K. Rea, and J. C. Zachos, *Nature*, v. 357, p. 320-322, 1992.

A comparison of Eocene climate model results to quantified paleoclimatic interpretations, L. Cirbus Sloan and E. J. Barron, *Palaeogeography, Palaeoclimatology, Palaeoecology*, v.93, p.183-202, 1992.

Paleoclimate of the Kimmeridgian/Tithonian (Late Jurassic) world: II, Sensitivity tests comparing three different paleotopographic settings, G. T. Moore, L. Cirbus Sloan, D.N. Hayashida, and N.P. Umrigar, *Palaeogeography, Palaeoclimatology, Palaeoecology*, v. 95, p. 229-252, 1992.

Something is wrong with climate theory, J. C. G. Walker and L. Cirbus Sloan, *Geotimes*, June 1992, p. 16-18.

Reply to comments on "Equable" climates during Earth history?, L. Cirbus Sloan and E. J. Barron, *Geology*, v. 19, p. 540-542, 1991.

"Equable" climates during Earth history?, L. Cirbus Sloan and E. J. Barron, *Geology*, v. 18, p. 489-492, 1990.

Book Chapters:

North Atlantic climate variability in the early Paleogene: A climate modelling sensitivity study, Sloan, L. Cirbus, and Huber, M., in, *Western North Atlantic Palaeogene and Cretaceous Palaeoceanography*, Geological Society of London Special Publications 183, 253-272, 2001.

An early Eocene ocean general circulation model simulation: Comparison of the three-dimensional temperature field with isotopic paleotemperatures, Bice, K. L., Sloan, L. Cirbus, and Barron, E. J., in press, in, *Warm Climates in Earth History*, edited by B. T. Huber, K. G. MacLeod, and S. L. Wing, Columbia University Press, pp. 79 - 131, 2000.

Polar Stratospheric Cloud Forcing in a Greenhouse World: A Climate Modeling Sensitivity Study, L. Cirbus Sloan, M. Huber, and A. Ewing, in, *Reconstructing Ocean History: A Window into the Future*, (Eds. F. Abrantes and A. Mix), Kluwer Academic / Plenum Publishers, pp. 273 - 293, 1999.

Global climate of the late Paleocene Epoch: Modeling the circumstances associated with a climatic "event", L. Cirbus Sloan and E. Thomas, in, *Paleocene/Eocene Boundary*, edited by W. Berggren, M.-P. Aubrey, and S. Lucas, Columbia University Press, p. 138-157, 1998.

Paleogene climatic evolution: A climate model investigation of the influence of continental elevation and sea surface temperature upon continental climate, L. Cirbus Sloan and E. J. Barron, in, "Eocene-Oligocene Climatic and Biotic Evolution", edited by D. Prothero and W. Berggren, Princeton University Press, p. 202-217, 1992.

Evidence from the Antarctic continental margin of Late Paleogene ice sheets: A manifestation of plate reorganization and synchronous changes in atmospheric circulation over the emerging southern ocean?, L. R. Bartek, L. Cirbus Sloan, J. B. Anderson and M. I. Ross, in, "Eocene-Oligocene Climatic and Biotic Evolution", edited by D. Prothero and W. Berggren, Princeton University Press, p. 131-159, 1992.

Other Publications:

The Year in Review: Paleogeography and Paleoclimatology, L. Peterson and L. C. Sloan, *Geotimes*, v. 46, p. 41-42, July 2001.

The Year in Review: Paleoclimatology and Paleogeography, L. Peterson and L. C. Sloan, *Geotimes*, v. 45, p. 42-45, July 2000.

Book Review: Creeping environmental problems and sustainable development in the Aral Sea Basin, L. Cirbus Sloan and M.A. Snyder, *Global and Planetary Change*, 2000.

The Year in Review: Paleoclimatology and Paleoceanography, L.C. Sloan and L. Peterson, Geotimes, p. 50-51, July 1999.

A View Through the Rocks, L. Cirbus Sloan, Science, v. 284, p.597, April, 1999.

The Year in Review: Paleoclimatology and Paleoceanography, L. Peterson and L. C. Sloan, Geotimes, February 1998.

Paleoclimatology, L. Cirbus Sloan, in, Encyclopedia of Earth Sciences, Macmillan Publishing Company, New York, 1997.

The Rock-Weathering Cycle, L. Cirbus Sloan, in, Encyclopedia of Climate and Weather, Oxford University Press, 1996.

Determination of critical factors in the simulation of Eocene global climate, with special reference to North America, L. Cirbus Sloan, Ph.D. dissertation, The Pennsylvania State University, December, 1990, 282 pp., 1990.
